

# Occupational Health Management System

This innovative, user-friendly, and flexible system allows you to improve the management of your occupational health function day-to-day, leveraging the latest cloud-based technologies to enhance the value you are bringing to employees and all stakeholders. The AMS system can be tailored to your needs.

## Key benefits of the AMS system:

- Enable the Occupational Health Department to go fully paperless and improve efficiencies throughout the department
- Provide an outstanding friendly user-experience for employees who can now book appointments online and see all their results electronically
- Provide valuable anonymised insights into the overall trends and key focus areas of your employees' health status

## Key Features & Benefits:

### Online Bookings

This will allow the employee to book an appointment. Results can be accessed online. Email appointment reminders.

### Interface with Laboratory

There is the capability for the system to interface with the laboratory. The employees blood results are imported directly to their medical record within the system.

### Inbuilt Health Screening Products

The AMS system has inbuilt screening products (Questionnaires, ECG, Spirometry, Vision, Hearing & Bloods) that allows you to easily record each employee's screening result. The system produces a traffic light system (Green, Amber, Red) depending on the results & allows the user (OHA/OHP) input additional clinical notes as required.

### Calendar of Events

This allows the OHA / Administrator to create various Occupational Health services and screening products. The employee can pick from the calendar which OH service to choose from.

## Key Features & Benefits:

### Secure Communications between HR and the OH Department

The AMS system allows HR personnel to input notes on employees referred to the OH department. This will assist with recording and dealing with absence management.

### Web based portal for easy, remote access

This allows the Occupational Health (OHP/ OHA) to access employees record remotely if required.

### Corporate Statistical Reports

This allows you to generate anonymised statistical reports allowing you to measure and track the various OH activities and screening results. It will give you an insight into the health of the organisation and track any health trends either by department or by the organisation as a whole.

### Results Portal

The reporting portal has the option to allow the employee access their own records / screening results.

## Why AMS?

Advanced Medical Services (AMS) is the leading health screening provider in Ireland to the corporate sector. We have developed a user-friendly platform over a number of years that the OH team, HR, management and employees of leading corporates across the country have found very beneficial.

AMS will work closely with you to ensure that the system is working to your needs. In addition, we understand the needs of Occupational Health Departments and are committed to supporting you with hands on training ensuring you get all the efficiencies the system has to offer.
